

### Conference Venue

The MemoCIS 8th Workshop and MC Meeting 'Memristors – Devices, Models, Circuits, Systems and Applications', 20.09. – 21.09.2018 will take place at the Technische Universität Dresden, Dülfersaal, Dülferstraße 1, 01069 Dresden.

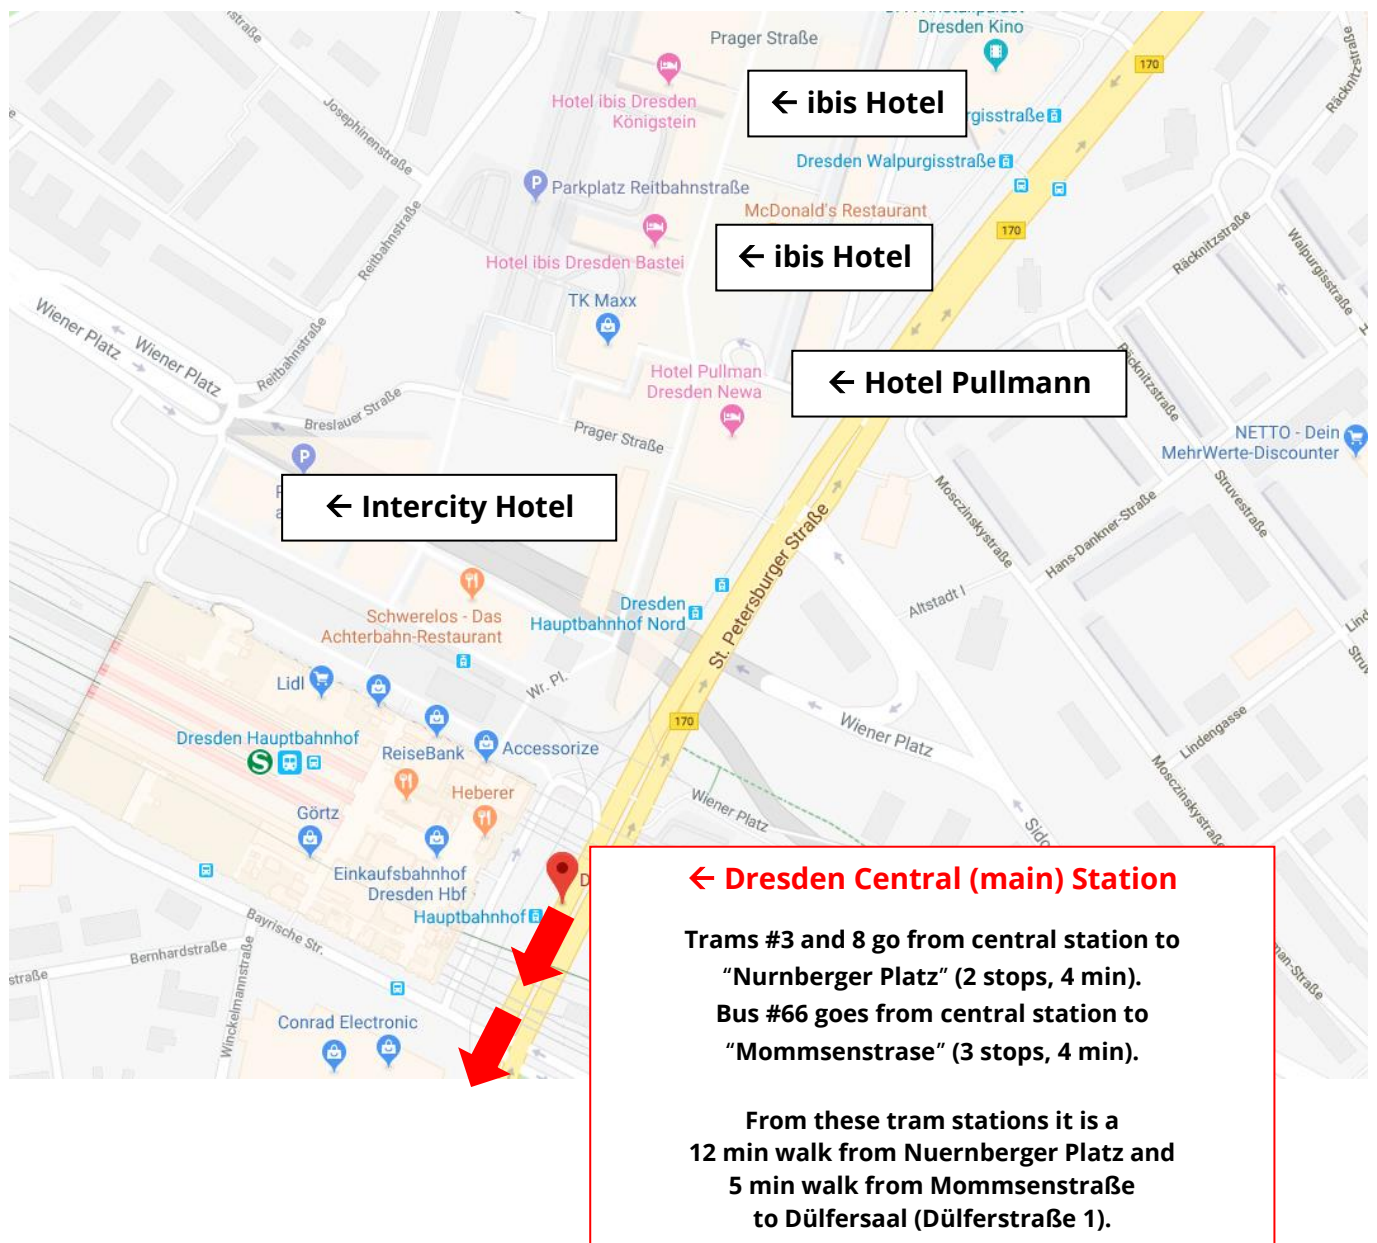

Dresden's beauty is inseparable from the natural beauty of the Elbe valley. City and landscape have developed harmoniously over centuries. Its architectural character has been shaped by masterpieces from numerous eras.

The best-known historical attractions of the old city include the Zwinger, the Cathedral, the Semper Opera House, the Royal Palace, and the Frauenkirche, which was reconstructed with donations from all over the world. The Neustadt district is furthermore the largest wholly preserved late-19th-century city quarter in Germany.

Actually Dresden has over 500.000 inhabitants and is therefore also the biggest city of Saxony. Dresden welcomes you and we hope that you will enjoy your stay here in our beautiful city of Dresden.

**Arrival:** From Dresden Airport (DRS) you can reach Dresden Hauptbahnhof (Central Station) by suburban train S2 in about 20 minutes (leaves every 30 minutes from lower level).

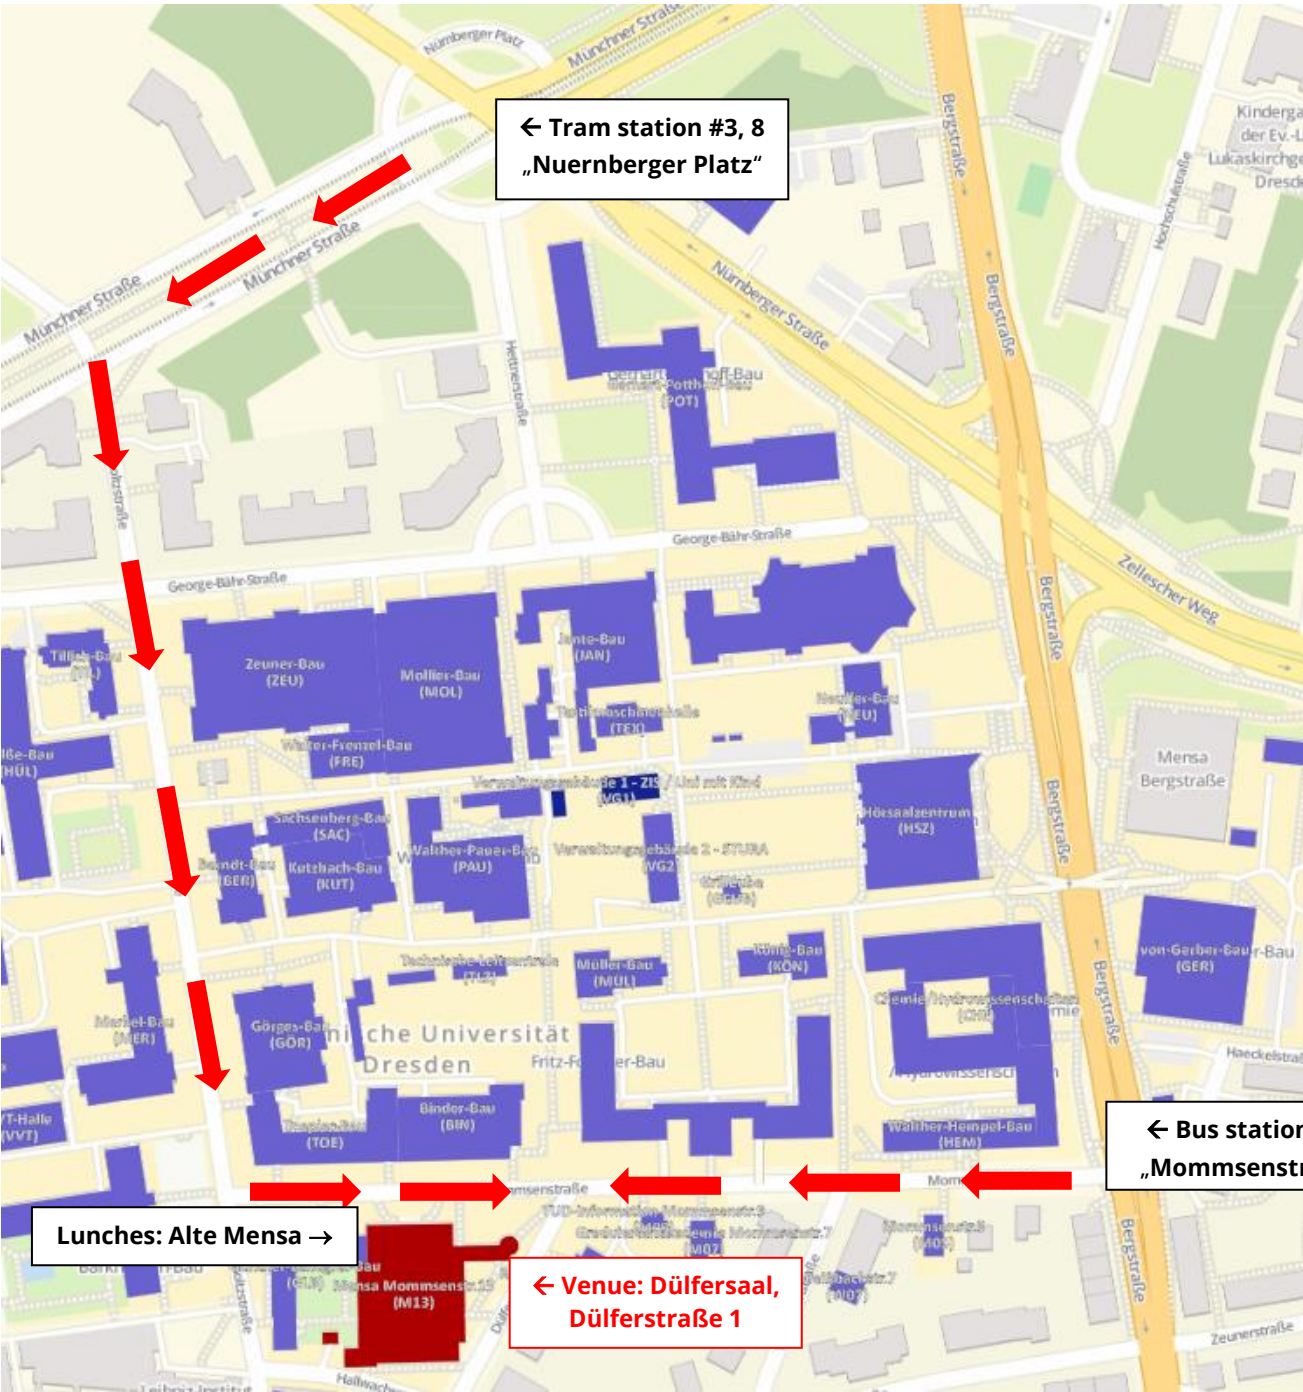

**Venue:** From Central Station you can go by tram or bus to the conference venue (see the maps).

Tickets are available at the stops (ticket machine) and at the DVB ticket office in front of Central Station. You can take a single ticket (Einzelfahrschein), a four-ride ticket (4er-Karte – each ride a bit cheaper), a day ticket (Einzeltageskarte – cheaper for more than two rides), or a week ticket (Wochenkarte – cheaper than four day tickets).

Important: You have to validate your ticket (put into orange or red boxes inside the tram or bus, or outside the suburban train – for each ride, or for a day/week ticket once, respectively).

More information: The tram and bus company is DVB ([www.dvb.de/en](http://www.dvb.de/en)), for suburban trains VVO ([www.vvo-online.de/en](http://www.vvo-online.de/en)) is responsible.
